UK Radiography Equipment (Film Processor - Mixer) and Service Provider

Labquip NDT now offers a free survey/health check on the AGFA STRUCTURIX film processor range

AGFA Film Processor Service – All models

Our free site survey is available for existing and new customers - offering a local, responsive and professional service.

We have stock in our new Leicestershire facility, and we will work with you on your full requirement needs. We provide full installation and service and have the relevant authorisation certification from the main WayGate/Baker Hughes factory in Germany.

Our operational processes include:

- **UK Service, Call out and Installation**
Gary Biddle is a fully factory-trained and experienced film processor service engineer. He has an excellent electrical and mechanical background and a Higher National Certificate (HNC) in Electrical Engineering. Gary has over 20 years' experience in scanner and processor-related equipment.
- **UK Based Service Engineer**
Gary is based in the "Midlands", which makes him fully accessible to the north and south of the country. He enjoys the day-to-day challenges and meeting clients and helping to solve their issues and problems.
- **UK Stock**
Processor parts and accessories on UK stock. Automated minimum safety stock level (QTY) by part number to bring and maintain on time deliveries.
- **Certificate of Conformity Requirement**
A copy will be provided at dispatch if needed. Warehouse prompted at dispatch by system if a customer requirement.
